

## New primary school in Caloundra South

### Newsletter

Hi!

I'm Steven Moore, the Principal of the new school in Caloundra South.

I would like to take this opportunity to introduce myself so that you get to know me as we work together to make some very big but exciting decisions together.

I am originally from South Africa but I have been living and working in Australia for approximately 15 years with the last 8 years as a Principal either in Queensland or abroad. I am passionate about primary school education – ensuring students have a strong foundation as they move through to secondary school and onto work, TAFE or university.

I have relocated to the Sunshine Coast from Cairns and I am working out of Maroochydore regional office while the new school is being built. I am being supported by a great team here who are working alongside me to ensure a smooth start in 2022. I am joined by my twin boys who will commencing in Year 3 at our new school.

I am committed to working with you all to build a school that is inclusive, innovative, offers a broad curriculum and promotes the use of ICT for teaching and learning. Whilst I have some ideas I am very interested in listening to your thoughts, ideas and suggestions for our new school.

Together we will be making decisions that will have long-term impacts so it is important that your voices are heard. Please encourage prospective parents, carers and community members to 'like' our newly created Facebook page to keep up-to-date with all of the important announcements and meeting dates that will be coming up shortly.

Look forward to meeting you all soon.

Steven Moore  
Principal
